

Editorial

2024 is coming to a close but there seems to be no end to global political and environmental conflicts. Future does not appear too golden any more.

The current issue of AJWEP will be the last one with present editorial board and publisher. I will not be associated with the Journal any longer. On behalf of Capital Publishing Co and the Editorial Board and on my own behalf I take the opportunity to thank all contributors who together gave creditability to the journal for the last two decades.

Wishing everyone a Happy 2025!
